

Photos, video & documents

Slug: media | Category: media

Summary

Capture photos and video in chat, upload documents, set profile selfies, and add product gallery media with multi-select on mobile or the web ? Photo button / file chooser.

Guide

Capture

- take picture / take selfie
- record video
- update profile photo - front camera
- upload document - PDF/images for chat or product caption

Product gallery

add product ExactName photo opens multi-select on mobile. On web/PC the system file dialog opens (or use ? Photo next to the mic). Success shows count + shelf verify hint; gallery photos apply without opening a support ticket.

Also: add product NAME video · add product NAME narration · update product photo for NAME.

Exit

Cancel camera/picker, or say stop / no file.

Chat commands

take picture · record video · upload document · update profile photo · add product NAME photo

Exit multi-step flows

Say STOP or CANCEL or EXIT at any time. Say CONTINUE to stay in the current wizard.

How-to videos
